DETAILED ACTION

Claim Objections

1. Claims 1-20 are objected to because of the following informalities: the term "for trike" should be *for a trike* for clarity. Appropriate correction is required.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

- (b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.
- 3. Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Jones (5,098,114).

Jones teaches an automatically adjustable rear suspension comprising (which may be employed for a bicycle and or tricycle, see col. 1, lines 6-8) a supply of pressurized gas pneumatically connected to a valve 41, at least one air spring 40 pneumatically connected to the valve, the air spring being disposed between a trike swing arm 44 and a trike frame 20, the valve being mechanically attached to the swing arm by means of a valve sock and/or pushrod 43.

Allowable Subject Matter

4. Claims 2-20 are allowed.
